

CALL FOR CONTRIBUTIONS OF LEARNING MATERIALS

Innovation Project Stage 2

2012

1. Purpose of the Call

The purpose of this Call is to call for contributions to the **learning** materials for the Certificate Program.

In February 2011 IAP2 held an Innovation Summit to review the [Certificate Program in Public Participation](#). An [Innovation Project Team \(IPT\)](#) was established in consultation with the IAP2 trainers in June 2011. The IPT have completed the development of overarching learning objectives and the proposed course structure for the certificate program. A [short video](#) presented Stage 2 of the project.

The project now involves the revision and development of sections of the learning materials (see [Annex 1](#) for more details). A short [new video](#) (3 min) presents this step of the project.

2. Call for voluntary contributions to the Innovation Project

The renewal of the Certificate Program is now at a very intense and exciting phase: your input and energy are needed in order for the revision to be a reflection of the vast knowledge within the IAP2 community.

The ways you choose to contribute to the project may include:

- offering materials you have that you think will contribute to the revision of the certificate program, i.e. suggestions for learning activities from your own experiences, conference papers that you recently gathered, articles that you found interesting, etc.
- offering videos that you have seen (on YouTube or elsewhere) or that you produced or your organization produced, or case studies you have developed or found
- whatever you think will contribute to improving the public participation learning experience

As the Certificate program has not been renewed for many years, we are aware that some interesting new materials have been developed to respond to the changes and developments in practice. **We welcome those materials and will acknowledge all contributions in the new training materials.**

If you would like more in-depth information on what content of the current Certificate program will be renewed you will find it in [Annex 1](#); you will find a **proposed content framework** that indicates which scale of revision the contents are subjected to.

Please feel free to suggest or indicate materials that apply to different sectors, or various countries.

3. Timeline of the Call

We ask you to respond to this call by the **end of April 2012**, indicating the kind of contribution you are available to offer and to write to Antonietta Cacciani, IAP2 Professional Development Manager at training@iap2.org

If you need additional time and/or clarification or information, an [Innovation Project](#) Web page is available on IAP2.org.
